

The local Lutheran parish church in Bad Wimpfen: Conservation and re-conception of the exterior protective glazing

"In co-operation with the State Office for Monument Conservation Baden Württemberg, we had the privilege to conserve the medieval glass paintings in the windows OI, nVI, nVII and sV and to adapt the existing protective glazing to the current state of the art.

Here, you will find a small selection of images – of course, additional photos are available.

We will gladly provide further information on [enquiry](#).

The exterior protective glazing in Bad Wimpfen in its previous condition

The exterior protective glazing in Bad Wimpfen in its condition after the completion of work

Der Chor der Stadtpfarrkirche

nVI dated at 1500/1530 (Becksmann 1986 p. 329ff)

nVII dated at 1552 (Becksmann 1986 p. 330ff)

sV dated at 1500/1530 (Becksmann 1986 p. 329ff)

OI datiert auf 1280/90 (Wentzel 1958 S. 230-233)
