

ROTHKEGEL
Glasgestaltung · Glasrestauration · Glastechnik · Leuchtenmanufaktur · Leuchtentechnik

Company History

- 2009** As a result of the founding of the Rothkegel Glas GmbH, which took over operative business operations as of 1.1.2009, the Rothkegel glass studio with its long tradition was offered all-new opportunities for further development. For the first time, one of the partners in the company - the graduate conservator Anne Kaiser with a degree from a University of Applied Sciences - is not a member of the family. This is a decisive contribution to enhancing the powers of innovation and preparing to make the company even more competitive at the highest level in the future.
- 2008** As third in his class at the CCI Würzburg-Schweinfurt, Matthias Rothkegel completes his training programme to become certified as a "Geprüften Technischen Betriebswirt (IHK) / Master Professional of Technical Management (CCI)" and for this receives the Master's Award from the Bavarian state government.
- 2007** With the the graduate conservator Anne Kaiser, Rothkegel is the first commercial glass factory to hire a conservator with a degree from a University of Applied Sciences - to assure and enhance the quality of the conservation.
- 2006** The founding of the company Rothkegel Licht GmbH places the independent development of the light-fixture manufactory with its long-standing tradition on a solid foundation in order to be able to embrace the innovative continuing developments in light-fixtures engineering without straying from the roots of custom solutions and craftsmanship. The divisions "Glass Design" and "Glass Conservation" remain with the company Glaswerkstätte Rothkegel e.K..
- 2005** With Michael Rothkegel's retirement from his active position as of 31.12.2004, the transformation of the Glaswerkstätte & Leuchtenmanufaktur M. Rothkegel OHG to become the Glaswerkstätte & Leuchtenmanufaktur Rothkegel e.K. (with Matthias Rothkegel as the owner) takes place.
As a matter of course, Michael Rothkegel remains available to assist our customers with his extensive expertise and experience.
- 1999** Relocation of the office to new premises in the Heuchelhof district
- 1996** Relocation of the glass factory to the Heuchelhof premises
- 1994** Matthias Rothkegel successfully completes the Master's Exam at the Bundesfachschnule des Glaserhandwerks in Hadamar.
- 1989** Matthias Rothkegel is employed as a journeyman at his parents' company and is actively involved in the newly built light-fixtures manufactory at Heuchelhof
- 1986** Beginning of the apprenticeship for Michael Rothkegel's son Matthias (b. 1969) at his parents' company
- 1978** Beginning of serial light-fixtures production and takeover of operations by Michael Rothkegel
- 1976** Construction of windows using the inlay technique - for the Hedwigskathedrale in Berlin, according to designs by Carl Clobes († 1996)
- 1972** Michael Rothkegel becomes a partner in the company
- 1960** Michael Rothkegel attends the master school and begins his work at his parents' company
- 1953** Johannes Rothkegel's son Michael (b. 1938) begins his professional training in Braunschweig

Presentation of the Master's Award granted by the Bavarian state government (presenter: the permanent state secretary Ms. Katja Hessel and CCI president Claus Bolza-Schünemann in March 2009)

Studio director and head conservator at a meeting with the State Office for Monument Preservation, the principal and the architect to plan the conservation concept

Group photo after completion of work on the windows re-designed by Curd Lessig in the side aisle of the cathedral at Lomé (Togo) - with the studio director, construction-site foreman and Michael Rothkegel

- 1947** Move to Würzburg following his release from captivity as a POW and a short stint in Brunswick as a glazier
- 1941-1945** Johannes Rothkegel's deployment in WWII and captivity
- 1934** Johannes Rothkegel establishes his own company in Oppeln
- 1925-1934** After Johannes Rothkegel had worked for one year as a journeyman at his parents' company, he began his years of travel in Dresden, Quedlinburg and Cologne.
- 1919** Beginning of the apprenticeship for Hermann Rothkegel's son Johannes (b. 1905, d. 1994) at his parents' company in Falkenberg, followed by an apprenticeship outside his parents' company (until 1923).
- 1896** Thomas Rothkegel's son Hermann (b. 1869, d. 1945) attends the master school in Breslau.
- 1880** Beginning of operations as a glass factory by Thomas Rothkegel (b. 1840, d. 1911) in Falkenberg (Silesia)
