

# ROTHKEGEL

Glasgestaltung · Glasrestauration · Glastechnik · Leuchtenmanufaktur · Leuchtentechnik

## With glass, one can even work directly on the wall or the floor

When the right type of glass is used, glass has its own unique appeal – even without background lighting.

Custom-manufactured glass tiles offer numerous possibilities – ranging from simple and reserved to opulent and luxurious design.

In this context, one can experiment with colours (as in the metro station in Fürth), incorporate simple graphic ornaments (as in the lobby in Bad Kissingen) or elaborate multiple workings with gold-leaf smelts – as in these patterns for the Arab market.

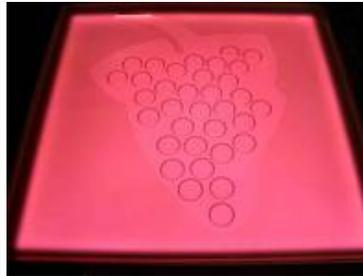

Glass tile with gold-leaf smelt and classic Arab ornaments

Lobby, Bad Kissingen: glass tiles according to the design by Florian Leitl
