Johannes Schreiber

In collaboration with Johannes Schreiber we had several works in glass, some with light, such as:

- Bamberg, private house
- Dettelbach, Protestant parish
- Uttenreuth, St. Cunegonde
- Wuerzburg, private apartment

With Johannes Schreiber, we produced a sample pane for the Baumesse in Munich out of 1440 x 3410 mm, probably one of the biggest ever fused panes; illustration on the right, in the picture, Thomas Richter, the virtuoso on our furnaces.
