

## Conservation and initial manufacturing of historic light fixtures

Just as the conservation of historic glass paintings, the conservation and authentic new manufacture of historic light fixtures requires experience and confidence.

We had the opportunity (i.e., in the following projects) to prove the truth of this premise:

- Justizzentrum, Bamberg
- Lobby, Bad Kissingen
- Chapel at Charlottenburg Castle, Berlin
- Solitude Castle near Stuttgart
- Cuvilliés-Theater, Munich
- Kugelhammer Castle, Röthenbach

In addition to restoring the original condition to the greatest possible extent (considering today's safety standards), we also perform the re-fitting for 3 - internal-link ""Opens an internal link in the current window"">more energy-efficient lighting.

We will also gladly conserve your historic light fixtures: Just context us by E-mail or fax: +49-931-60096-19

Lobby Bad Kissingen

Justizzentrum Bamberg

Berlin, Charlottenburg Castle, reconstruction of historic mirrored fixtures

Hannover, St. Martin, modernisation of the light fixtures which were part of the original overall architectonic concept for the church

Regensburg Dreieinigkeitskirche, Kristallluster in Loge

Eutin Castle, conservation and new manufacture of the exterior light fixtures

## Conservation of the chandeliers at Solitude Castle
