

ROTHKEGEL
Glasgestaltung · Glasrestauration · Glastechnik · Leuchtenmanufaktur · Leuchtentechnik

Many years of experience and academic expertise, hand in hand

In order to even better live up to this responsibility for the future, we had expanded our team and welcomed a conservator with a degree from a University of Applied Sciences, specialising in glass paintings and glass windows to our team in May 2007 as a salaried employee with a responsible position!

Currently Dipl. Rest. (FH) Petra Ullrich is your counterpart in your company with academic expertise. Our highly experienced team around the practitioner Gerhard Winkler (with us since 1977), Thomas Richter (since 1986 with us), Matthias Umkehr (since 1989 with us), Stephan Heinrich (since 2002 with us) assists you with extensive craftsmanship expertise.

Besides studying for graduate-glass restorer Ms. Ullrich is also a master of glass painting. This means for your project a further advantage of expertise.

In this context, our team, with approx. 1.100 hours of continuing-education measures in glass-painting conservation, in addition to our practical experience, displays a very high rate of continuing education.

For instance, in 2004, all nine of us participated in the Study Day at the University of Applied Sciences at Erfurt, in order to enable as many people as possible from our team to benefit from the research results.
