Glass and stone two exciting contrasts

The combination of glass and stone, at first view, are contrasts, here the light, translucent, where the heavy, earthy.

On closer inspection, the two are for centuries an ideal combination, just think of the magnificent cathedrals of the Gothic period.

Get inspired and with our help you develop entirely new forms of artistic expression of your power, with your stone and our glass, made ??especially for you.

All the stone work on this page created by [Joachim Ulsamer](http://www.der-steinhauer.de)
