Wanda Dück (geb. Stokwisz)

In collaboration with Wanda Düeck, born Stokwisz, we made this icon "Our Lady of the signs".

In this work many different glass design techniques have been used, including etching, sandblasting and various glass painting. As base, glass-blown real antique flashed glass, was used.

In addition, gold leaf was applied to the work.

We will be happy to contact Wanda Dück for you, when you like to have a personally designed glazing.
